

APPEAL TO THE AUTHORITIES

Request to look into an illegal and disturbing operation at Sodiem, Siolim

Date: 9 June 2026

To,

The Goa State Pollution Control Board; the District Collector & District Magistrate, North Goa; the Sub-Divisional Magistrate, Mapusa; the Superintendent of Police, North Goa; the Town & Country Planning Department, Mapusa; the Sarpanch, Village Panchayat Siolim-Sodiem; and all other concerned authorities.

Subject: Appeal to look into the encroachment on my land, and the illegal commercial operation, construction and noise nuisance of the “Sunday Racquet and Social Club” at House No. 47/3, Gaunsawaddo, Sodiem, Siolim, Bardez – Goa.

Respected Sir / Madam,

I, **Olympio Almeida**, resident of Sodiem, Siolim, Bardez – Goa, write to appeal to all the authorities concerned to kindly look into a serious and continuing matter at Survey No. 197 / House No. 47/3, Gaunsawaddo, Sodiem, Siolim.

A commercial sporting business — outdoor padel courts operating as the “Sunday Racquet and Social Club” — is being run in the middle of a residential area, immediately next to family homes. It has also encroached upon my land. It is causing daily distress to residents, several of whom are senior citizens, and it appears to be operating in violation of the law. In particular:

1. **Encroachment on my property** — the operators have encroached upon and occupied a portion of my land without any right, title or consent;
2. Loud and continuous noise — the sharp impact of paddle-ball play, amplified music and rowdy, late-night activity — from early morning until around midnight, well above the noise limits permitted for a residential area;
3. Commercial use of land in a residential zone, with no proper buffer from neighbouring homes; and
4. A documented history of unauthorised construction at this very plot — the Village Panchayat Siolim-Sodiem had earlier revoked the construction licence here for building “not as per the approved plan.”

Despite complaints already made, the disturbance continues and no effective action appears to have been taken on the ground.

I therefore appeal to all the authorities to kindly:

5. Carry out an inspection and a survey/demarcation of the premises, including during evening and night hours when the disturbance is at its worst;
6. Examine the legality of the construction and the commercial operation on this residential plot, and have the encroachment on my land surveyed, removed and my property restored to me;
7. Take appropriate action under the noise-pollution, public-nuisance, planning and panchayat laws; and
8. Direct that the disturbance be stopped, so that residents — especially the elderly and unwell — can live in peace.

I shall be happy to provide any further information, photographs, documents or sound-level readings required, and to assist any inspection. I earnestly request your kind and prompt intervention.

Yours faithfully,

Olympio Almeida

Resident of Sodiem, Siolim, Bardez – Goa
